

Glamorous Light, Glamorous Night!

THE IES SF SECTION PRESENTS

SFLUX AWARDS

LUMEN EXCELLENCE

ILLUMINATING ENGINEERING SOCIETY 2022

OCTOBER 19, 2022

Glamorous Light, Glamorous Night!

SF **LUX** Awards

Marine Memorial Club Hotel San Francisco

OCTOBER 19, 2022

We welcome you to the 2022 SF Lux Awards! The San Francisco Section of the Illuminating Engineering Society's annual SF Lux Awards and Banquet celebrates the excellence of design, creativity and dynamic energy unique to our Bay Area lighting community. All projects in the SF Lux Awards are submitted for online judging in the IES North America Illumination Awards. The SF Lux Awards comprises projects by Bay Area firms that the IES San Francisco Section chooses for special recognition.

Check In, Cocktail Hour
and Photobooth Open 6:00pm – 7:00pm

Dinner 7:00pm – 8:00pm

Awards Presentation
and Speeches 8:00pm – 8:45pm

Welcome and Introduction
MJ Paul emcee for the evening

Remarks from the Interim IES President
Sima Tawakoli

Awards introduction
Sima Tawakoli

Award Presentations

- Melinda LaValle and Jim Allen
- Illumination Award for Energy and Environmental Design
- Illumination Award for Outdoor Lighting Design
- Illumination Award for Interior Lighting Design
- Illumination Award for Lighting Control Innovation
- Award of Excellence

Closing remarks
MJ Paul

Coffee, Dessert Display
and Photobooth Open 9:00pm

After Party! Dancing! 9:00pm – 11:00pm

Event Concludes 11:00pm

PROGRAM

SF Lux Event Organizers

SF Lux Awards Distinguished Jury Panel

Judges recuse themselves from judging any project that represents a conflict of interest.

James Donson:

James just started his new adventure at National Renewable Energy Laboratory as their Energy Engineer recently. James was the director at kW Engineering who manage large, continuous improvement energy-efficiency and electrification projects. He provides subject-matter expertise in the form of training seminars offered on behalf of our clients and for our internal staff.

Janelle Drouet:

Janelle is a senior associate lighting designer at Mazzetti San Francisco and as an international lighting design professional and lighting leader focuses on creating expressive, sustainable, and award-winning concepts in light that meet the client and project needs.

Neha Sivaprasad:

Neha is the principal and founder of SOL Light Studio in San Francisco Bay area. She has been working with different lighting design and architectural firm in the last 20 years as a lighting designer.

Tyler Winston:

Tyler is the control department manager at 16500 and he is leading the lighting control design team toward energy saving and creative solution on variety of projects.

The IES Illumination Awards are comprised of four parallel program categories.

Illumination Award for Interior Lighting Design *sponsored by Edwin F. Guth*

In 1902 Edwin F. Guth founded the St. Louis Brass Company and later renamed it the Edwin F. Guth Company. Mr. Guth's profound creativity, entrepreneurialism, and focus to improve interior lighting are partially represented through 147 patents awarded to him prior to his passing in 1962. This award recognizes exceptional interior lighting projects that balance the functional illumination of space with the artistic application of light to enhance the occupant's experience.

Illumination Award for Energy and Environmental Lighting Design

The Energy and Environmental Design Award recognizes quality lighting installations in commercial and industrial buildings that incorporate advanced energy saving strategies and environmentally responsible solutions into the overall design.

Illumination Award for Lighting Control Innovation

Advanced lighting control solutions can provide significant energy savings, flexibility and other benefits in buildings. This prestigious award recognizes good lighting projects that exemplify the use of lighting controls in nonresidential applications.

Illumination Award for Outdoor Lighting Design *sponsored by Cooper Lighting Solutions*

The Outdoor Lighting Design Award recognizes excellence in lighting design and application in all aspects of exterior lighting. The program celebrates achievements in aesthetics, applied technical acumen, creative solutions to demanding site conditions and advancements to the industry in outdoor lighting applications. The goal of the program is to further the understanding, knowledge and function of outdoor lighting as a critical aspect of the built environment.

All projects receive levels of recognition attained by consensus judge scores.

The lighting design projects submitted by Bay Area firms for the 2022 SF Lux Awards demonstrate many impressive design solutions – first and foremost a level of excellence and creativity in design that is simply superb, world class.

In our IES San Francisco Section and the larger local community we should all be proud about being part of a vibrant design ecosystem that produces work at this high level. The projects show amazing versatility and willingness to use new technologies in fresh ways to create beautifully illuminated interior and exterior environments. They exemplify innovative approaches to controls, energy efficiency, sustainability, and the often deliver moments of exquisite beauty.

Based on the quality of the lighting and architectural design shown in the project submissions we saw, we can have it all, but not through technology and engineering alone, nor by simply imitating styles, but by a truly integrative design process that combines beauty, efficiency, and intelligence. Our local design community is already amazingly famous for impacting the world of lighting designers and working hard so that excellent design becomes the standard of the future.
